

Empowering Agencies Around the World to Modernize Investigations

Protect and
Save Lives

Accelerate
Justice

Preserve
Privacy

Cellebrite's end-to-end Digital Intelligence Platform helps to eliminate "forced choices" across the investigative model by delivering a "force multiplier" that modernizes your agency's investigative workflow. With best-in-class technology and unmatched industry expertise, clearance rates can be improved, public trust advanced, time-to-evidence accelerated, and operational efficiencies optimized.

Digital Intelligence Platform

As technology continues to change the nature of crime, Cellebrite transforms investigative culture and modernizes digital investigative workflows through our Digital Intelligence Platform.

We deliver the capabilities needed to solve more cases with less resources, unlocking a massive social benefit to communities dealing with serious and pervasive crimes.

Digital Intelligence Platform Capabilities

Cellebrite's unique end-to-end platform helps customers collect, review, analyze, and manage case data.

Our Digital Intelligence Platform works across all teams in the investigative process:
