E-DISCOVERY	PRIVACY	FORENSICS	COMPLIANCE
<p>EXTERRO LEGAL HOLD™</p> <p>Widely recognized as the gold standard for legal hold software for Global 2000 companies. Exterro's flagship product delivers a rich feature set and intuitive user experience enabling precise command and control for easy legal hold scoping, management and release.</p>	<p>EXTERRO SMART DATA INVENTORY™</p> <p>Exterro Smart Data Inventory™ helps organizations build, monitor and maintain a defensible privacy program based on a single intelligent and dynamic data inventory across record types, assets, 3rd parties and processing activities.</p>	<p>EXTERRO FTK® FORENSIC TOOLKIT</p> <p>FTK® Forensic Toolkit is the industry's preferred solution for a repeatable, defensible, forensically sound, full-disk image collection, processing and analysis tool. Zero in on relevant evidence quickly, conduct faster searches and dramatically increase analysis speed with FTK®, the workhorse solution that interoperates with mobile device and e-discovery technology. FTK has been a staple in every forensic investigator's toolkit for more than 15 years.</p>	<p>EXTERRO INCIDENT AND BREACH MANAGEMENT™</p> <p>Exterro Incident and Breach Management™ is an integrated solution that enables you to be confident that your incident and breach response process is both documented and defensible.</p>
<p>EXTERRO E-DISCOVERY DATA MANAGEMENT™</p> <p>The sole collection, processing, review and production solution on the market that identifies the most important ESI before collection. Leveraging a full review platform, advanced analytics and predictive technologies, attorneys can gain early access to key documents that can change the course of a legal matter.</p>	<p>EXTERRO DATA RETENTION™</p> <p>The world's most trusted and defensible data retention and disposal software solution for meeting domestic and international regulatory obligations.</p>	<p>EXTERRO FTK® LAB</p> <p>Powered by our FTK® forensic workhorse solution, Lab is the tool of choice when you need to power through massive data sets, handle various data types and run multiple cases at the same time.</p>	<p>EXTERRO FILE ANALYSIS™</p> <p>The foundational building block for your information governance efforts, Exterro File Analysis provides critical insight and orchestrates your data consolidation, legacy data migration, sensitive content identification, defensible deletion and other information management projects and processes.</p>
<p>EXTERRO PROJECT MANAGEMENT™</p> <p>The only purpose-built project management system designed specifically for e-discovery and other legal processes. Leveraging user defined and modifiable workflows and intuitive dashboards, Exterro Project Management automates repeatable processes for consistent, high quality projects. Law Firm version also available.</p>	<p>EXTERRO DATA SUBJECT ACCESS REQUEST™</p> <p>Exterro's solution enables clients to orchestrate the entire process from request, identity validation, search, collection, review, redaction and delivery or other desired action.</p>	<p>EXTERRO FTK® ENTERPRISE</p> <p>From multiple office locations to massive worker pools and work-from-home remote employees, Exterro FTK Enterprise provides deep visibility into endpoint data (including Macs) to investigate data breaches and employee wrongdoing, and to facilitate regulatory and legal requirements so you can respond quickly, remotely and covertly while maintaining chain of custody.</p>	<p>EXTERRO EMPLOYEE CHANGE MONITOR™</p> <p>An early warning system that reduces operational risk – including potential ESI spoliation – by replacing error-prone manual processes with automated, pre-defined actions appropriate to employee status changes, such as termination or transfers.</p>
<p>EXTERRO DATA SOURCE DISCOVERY™</p> <p>Exterro Data Source Discovery™ enables you to easily maintain an accurate and current data source catalog without relying on IT by automatically discovering data sources, updating your data source catalog, and associating the data sources to employees who have data stored within them.</p>	<p>EXTERRO DATA DISCOVERY™</p> <p>With Exterro Data Discovery, teams can get an up-to-the-minute, accurate, and actionable view of data risks, eliminate labor-intensive and time-consuming data discovery processes, and simplify compliance efforts.</p>	<p>EXTERRO FTK® CENTRAL</p> <p>FTK Central combines the powerful processing engine of FTK with innovative new forensic & legal review workflows, together into one collaborative, web-based tool. FTK Central allows your team to look at case data through a single pane of glass, giving technical and non-technical users a real-time view into their assigned cases. Whether you are a forensic investigator, an incident responder or a legal reviewer, you can come to FTK Central as your holistic forensic processing, forensic analysis and forensic review platform.</p>	<p>EXTERRO SMART BREACH REVIEW™</p> <p>Exterro Smart Breach Review is the fastest and most scalable breach review technology. It has ingestion speeds over 33x faster than comparable products, and integrated self-learning AI that automatically detects all kinds of personal information.</p>
<p>EXTERRO DATA SOURCE DISCOVERY™</p> <p>Exterro Data Source Discovery™ enables you to easily maintain an accurate and current data source catalog without relying on IT by automatically discovering data sources, updating your data source catalog, and associating the data sources to employees who have data stored within them.</p>	<p>EXTERRO CONSENT™</p> <p>Exterro Consent helps you meet customer expectations in the post-cookie world, delivering positive experiences that engage them in a consistent way across all channels and all stages of their journey.</p>		
<p>EXTERRO DATA SOURCE DISCOVERY™</p> <p>Exterro Data Source Discovery™ enables you to easily maintain an accurate and current data source catalog without relying on IT by automatically discovering data sources, updating your data source catalog, and associating the data sources to employees who have data stored within them.</p>	<p>EXTERRO VENDOR RISK PROFILING™</p> <p>The world's only third-party diligence solution designed specifically to help privacy, compliance and legal professionals determine which vendors are subject to domestic and international regulations.</p>		

The Preferred Choice of the Corporations, Government, Law Firms and Law Enforcement Worldwide

Exterro's global client base rely on us to meet their unique and complex Legal GRC requirements. Our clients extend across every major industry, including healthcare, finance, retail, manufacturing, energy, state, local and federal government and law enforcement.

A Recognized Market Leader

Exterro is the ACC's preferred provider of cybersecurity, privacy and e-discovery and recognized by industry analysts as one of the top software providers in the market.

Extensive Partner Network

Exterro partners with leading legal, service provider and consulting organizations. Technology partnerships in areas like matter management and legal review enable Exterro's clients to leverage previous investments while still integrating next-generation Exterro technology. Service and consulting partnerships allow clients to partner with proven e-discovery, privacy, digital forensics, incident response, and compliance experts to successfully develop internal processes powered by Exterro's Legal GRC software.

Select Clients

SIEMENS

“As a global organization, our legal team is constantly looking at ways to mitigate risks and lower costs as e-discovery demands grow. We were immediately impressed with the intuitiveness, scalability and flexibility of the software, as well as the expertise and support offered by Exterro to address our requirements.”
