

**DEI**

# Digital Evidence Investigator®

**1**

## Collect

- Capture RAM to acquire volatile memory
- Custom and Built-in Search Profiles
- Conduct live and boot scans on Windows, Linux, and macOS
- Scan external devices (USB, CD, DVD, SD cards, etc.) attached to the workstation

**2**

## Analyze

- View links between files of interest and user activities
- Filter search results with sorting and search capabilities
- Leverage facial analysis age detection

**3**

## Report

- Portable standalone viewer to share with investigators and prosecutors
- HTML, CSV, and PDF reporting options
- Export JSON to 3rd party applications

## Add-On Capabilities

- Central management capabilities
- License Server (check-in-check-out)
- Audit Server (report across the agency)
- 230+ language translation with text analysis, entity extraction, and gisting

The screenshot displays the software's main interface. At the top, a navigation bar shows 'Close', 'Back', and 'Forward' buttons, along with the title 'PICTURES'. Below this is a grid of image thumbnails, including various bridges and technical diagrams. On the right side, there are statistics: 'Records: 2044', 'Selected: 1', and 'Tags: 1/6'. A vertical toolbar on the right contains icons for 'Search', 'Columns', 'Detect AI', 'Filter', 'Zoom', 'Tags', 'Comments', and 'Classifier'. At the bottom, a 'Properties' panel is open for a selected file, showing details such as 'Tags: 1 - Level 1', 'File Type: JPEG/JIFF Image', 'Size: 72184', 'File Created: 2018/03/15 12:26:41', 'Path: Src6/Part7/Users/VernT/Downloads/Downloads/US Bridges', and 'Picture Width: 640'. A 'Preview' window shows a small image of a bridge. To the right of the properties, there are sections for 'Comments', 'Targets', and 'Matching MDS'.

*ADF is an incredibly easy-to-use forensic software that allows us the ability to collect actionable intelligence in the field. Additionally, ADF has significantly reduced the time it takes to complete our forensic caseload by over 80%; Not only saving time but more importantly, saving lives. - Stephen Komorek, API Consulting Group*
