true concern for your pet...

**Who is CTVSEH?** Central Texas Veterinary Specialty and Emergency Hospital is a 24-hour veterinary emergency and advanced care facility committed to working collaboratively with you, the pet owner, and primary care veterinarians to provide advance medical care and specialty treatment for your pet(s). We are committed to providing excellence in Veterinary Critical Care, Emergency Care, Surgery, Internal Medicine, Dermatology & Allergy, Eye Care or Ophthalmology, Neurology & Neurosurgery, Rehabilitation & Conditioning, Cardiology and Sports Medicine.

Our hospital offers state-of-the-art expertise and equipment with three locations in the Central Texas area. Our veterinarians are dedicated and experienced clinicians whose goal is to provide excellent veterinary care for your pet in a compassionate and personal manner. We are ready to provide empathetic comprehensive advanced medical care for your pets – 24hrs, 365 days a year.

**Top Specialists** Our veterinarians, 17 of which are board-certified specialists, rank among the most skilled and distinguished in the nation. Besides earning their Doctorate in Veterinary Medicine, our specialists had four additional years of education and training in their area of specialty. They successfully completed rigorous board certification to become Diplomates in their areas of specialty. Include their compassion as animal lovers, an empathetic approach with the pet owners and an open and direct communication policy with referring vets, and it is easy to see why we're considered to be one of the leading animal hospitals in Texas. The CTVSEH group of specialists practices "collaborative medicine." The team combines their veterinary expertise and skill in the various areas of specialty to deliver the best diagnosis and treatment for your pet.

**Powerful medicine. Exceptional Care.** Like our doctors, our team of veterinary technicians and assistants are skilled, experienced, and, in many cases, specialized in certain practice areas. Most of our staff are pet owners too. They have great empathy for the connection you have with your pet.

Our staff receives intensive training on how to provide world-class service. We believe the key to Powerful medicine, Exceptional care is communication. While your pet is with us, you will be kept up to date on your pet's status, diagnosis and medical treatment. We will make sure that you are informed about and involved in the options for care. We will allow you the personal space and time to weigh your choices carefully.

compassionate. comprehensive. care.

**Comprehensive Services** When your pet is sick or injured, treatment usually begins with your family veterinarian, a skilled and highly trained Doctor. Occasionally though, your pet requires specialized care, and access to cutting-edge medical technology. CTVSEH has three fully equipped hospitals throughout the Austin/Round Rock area to treat and manage all of your pet's needs. Whether it be a life-threatening accident, a chronic disease, or debilitating illness, you can depend on CTVSEH for the quality, comprehensive care your pet needs. Your family can trust that our expert specialists and advanced technology and diagnostics provide your pet with the highest level of care.

**Critical Care** ICU care for pets with advanced trauma, critical or life-threatening illnesses, pain management, the need for constant monitoring or advanced diagnostic testing and treatment.

**Emergency Care** Around the clock monitoring and care, walk-in emergencies, urgent care, surgery, ultrasound, x-rays, oxygen therapy, open 24/7.

**Surgery** Orthopedic, soft tissue & neurologic surgery including cancer removal, arthroscopy, joint replacement, abdominal procedures, broken bones & laparoscopy.

**Internal Medicine** Diagnose & manage issues of the urinary, endocrine, gastrointestinal, immune cardiovascular, & hemolymphatic systems.

**Dermatology** Treatment of allergies, skin parasites, chronic ear infections, auto-immune diseases, skin cancers, & other skin and ear diseases.

**Eye Care/Ophthalmology** Diagnose & treat problems related to the eyes including foreign objects, cataracts, glaucoma, ulcer, retinal disease & CERF exam.

**Rehabilitation & Conditioning** Rehabilitation after surgery, neurologic issues, weakness, or trauma along with injury prevention, weight loss & athletic conditioning.

**Neurology/Neurosurgery** Diagnose & treat neurologic issues of the brain & spine using MRI/CT scan/surgery including seizures, paralysis, weakness, infection, meningitis and any other condition of the nervous system.

**Oncology** Specializing in the diagnosis and treatment of cancer in pets with staging, treatment planning & administration.

**Sports Medicine** Diagnosis, prevention of & treatment of Sports Medicine injuries of the canine athlete including surgery and/or physical therapy as indicated by the injury.
