

**LEADER IN VETERINARY POINT OF CARE
VISCOELASTIC COAGULATION MONITORING**

Why **VCM Vet**?

1. Ease of Use

In just three steps VCM Vet™ will provide a patient's global hemostasis profile.

2. Flexibility

Whether running in the most up to date facilities or in the field, VCM Vet™ provides rapid, reproducible and high quality results.

3. Affordable

More complete, actionable, real-time coagulation information in a cost-effective solution. VCM Vet's viscoelastic testing gives you a greater understanding of your patients' coagulation status.

4. Patient Side Results

Immediately at your patient's side assess hemostasis status, diagnose and adjust therapies without waiting for results to come back from the lab. Real-time, point of care viscoelastic coagulation monitoring.

5. Reliability

Our automated, chemical activator-free test limits and prevents variation between operators, ensuring your results remain accurate regardless of user.
