

IF YOU CAN
DREAM IT,
WE CAN
THEME IT!

Since 1997, Wacky World Studios has been the industry leader in creating one-of-a-kind immersive children's church environments.

More recently we have branched out into healthcare facilities, museums, libraries, parks & recreation, restaurants, retail and even private residences.

In 2020, Wacky World Studios was acquired by PlayCore, which has provided us with an opportunity to accelerate our products, service offerings and customer reach.

In return, we are able to bring our award-winning immersive theming solutions to PlayCore's already extensive product and service offerings.
