

Office of Medical Education

Coming to AAP 2024
in Orlando, Florida?

Visit our booth: #215

We emphasize clinical excellence, leadership, and scholarship across all domains, with personalized and innovative curricula for career growth.

Additionally, our flexible programs adapt to learners' needs and evolving health care trends, empowering residents and fellows to shape the future of medical training and practice.

St. Petersburg, Florida

Graduate Medical Education at Johns Hopkins All Children's Hospital

Johns Hopkins All Children's Hospital is ranked the number one children's hospital in Florida according to the 2023-2024 *U.S. News & World Report*. Our freestanding children's hospital continues the Johns Hopkins Medicine tradition by modernizing graduate medical education and preparing future leaders in pediatric care, research, education and advocacy.

Our innovative, individualized programs prioritize education in collaborative settings, allowing trainees to focus on learning without being depended upon for hospital operations.
