

# PROVIDERS NEEDED

## Childhood Obesity Study for Primary Care

### Primary Care Providers:

Are you looking for an  
Intensive Health Behavior and Lifestyle Program  
for pediatric patients with overweight or obesity?  
Consider joining a study and enrolling patients in  
**Touchpoints**, a new family-centered program  
from The Dr. Yum Project

### Eligibility

- Primary Care Outpatient Clinics seeing patients 2-18 year of age
- Not currently doing any formal lifestyle teaching program for patients with overweight and obesity

### Benefits

- Your practice has FREE access to Touchpoints program for one year (\$588 value per provider)
- Low time committment
- Billable lifestyle visits generate income for your practice

 **UTHealth Houston**  
School of Public Health  
Center for Health Equity
