

Health Library

Pediatrics

Why Health Libraries?

Designed to support foundational learning and clinical practice, Health Libraries deliver trusted health science education and clinical content to trainees and residents, fellows, program directors, faculty, new clinicians, and students through a single portal — providing interactive online access to essential textbooks, multimedia and imagery, real-life case studies, and quizzes.

Health Library: Pediatrics supports residents and trainees in Pediatrics with a comprehensive and integrated set of content. All the core sub-specialties required for master of a curriculum are covered, making the product applicable for all core rotations, rounds, Board prep, and exam prep.

Key Features of Health Libraries:

- **Account personalization:** Save content to your own MyHealthLibrary, access Health Library from any computer, and set up email alerts for when new content is added
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation (subscription model only)
- **Advanced semantic search:** View results displayed by title, chapter, topic, and/or type of resource
- **Responsive Design:** Browse content on your computer, tablet or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, residents, fellows, trainees, and new clinicians control over their progress and motivation to learn
- **Sharing:** Much content, including technical videos, can be shared with colleagues and classmates
- **Multimedia ancillary content:** Access videos, images, Q & A, and more

Unique Online Learning Package Combining World-Class eBooks, Clinical Videos, and Self-Assessment

Health Library Pediatrics features:
