

BE WELL.  
SLEEP BETTER.

NATUREPEDIC® 

## OUR MISSION

# Why Organic

Healthy, organic sleep – it supports our bodies and brains, helps us to be productive, and contributes to our overall well-being.

Offering holistic health solutions extends beyond the treatments performed in your practice. It includes ensuring that every aspect of your patients' and clients' lives supports their well-being, including their sleep environment.

Naturepedic specializes in certified organic mattresses, designed with health, wellness

and sustainability at the forefront. Our products are crafted from responsibly sourced materials like organic cotton, wool and latex – and without the polyurethane foam, flame retardants, GMOs, glues/adhesives, pthalates, formaldehyde, fiberglass and more harmful materials that are common in conventional mattresses.

We invite you to join us in our mission to provide Safe Healthy Sleep – a cornerstone of overall health – for your patients, for our communities, and for the planet.

ENHANCE YOUR PRACTICE WITH NATUREPEDIC

Because toxic chemicals never belonged in the bedroom.

TRUST + TRANSPARENCY

## Safe Healthy Sleep Since 2003

Nowadays, there are a lot of new organic mattress brands out there (and even more greenwashing going on). It can be hard to figure out which products to trust. But Naturepedic didn't just join the organic mattress movement. We pioneered it, and we've been leading the charge for transparency – and proof – for the past 20 years.
