

BUDGETS

We pride ourselves on being able to offer something to everyone, whether your budget is one hundred dollars or one million dollars.

Cost is determined by design. Our goal is to make sure we design a space that will fit within your budget and most designs can be created in a way to fit a variety of budgetary needs. A 3D freestanding object can become a 3D wall relief object, which can become 2D flat printed, which can become a wall graphic!

Need More Funds to Support Your Dreams (or Themes)?

If your project includes a play area, the PlayCore Grant Finder Tool helps you locate funding for your play and recreation projects. Search funding for "Inclusion" and "Playground Equipment" at playcore.com/funding.
