Experts Providing the Highest-Quality Neurological Care

Just for Children and Teens

 **NEMOURS**
CHILDREN'S HEALTH.

We understand that children aren't just small adults, so they need prompt and innovative neurological care, specifically designed for their growing bodies.

- Our neurologists treat disorders involving the brain, spinal cord, and nerves and muscles, including epilepsy, cerebral palsy, movement disorders, brain injuries and tumors.
- We diagnose and treat children with problems like migraines, nerve pain and muscle weakness. We can even diagnose babies in the womb and create a care plan before birth.
- We partner with community physicians as well as other pediatric specialists to deliver coordinated, whole-child care from routine diagnoses to complex conditions.

Conditions We Treat

Our team of experts are skilled in the diagnosis and care of the following disorders:

- Ataxias
- Brain tumors
- Cerebral palsy
- Epilepsy and seizures
- Headaches and migraines
- Hypotonia
- Muscle and nerve disorders
- Movement disorders
- Muscular dystrophy
- Neurocutaneous syndromes
- Neurofibromatosis
- Neuromuscular disorders
- Neuropathy
- Spinal muscular atrophy (SMA)
- Stroke
- Tourette syndrome and other tic disorders
