## High-Risk Pregnancy Care

Maternal Fetal Medicine provides care and treatment for complex and high-risk pregnancy and delivery. Our multidisciplinary team of specialists focuses on ensuring you and your baby have the safest possible experience.

## Fetal Care Patient Navigators

At Joe DiMaggio Children's Hospital Fetal Care Center, we pair you with an experienced and compassionate patient navigator to educate you and your family about your child's specific diagnosis and guide you through each step of your child's care.

### As your main point of contact, your patient navigator:

- Educates you about your child's diagnosis and what to expect in the days ahead.
- Answers questions about your child's treatment and potential side effects.
- Assists with coordinating your child's appointments, including tests, and surgical procedures.
- Relays information to, from and among your child's healthcare providers to ensure that everyone is on the same page.
- Refers you to services and resources that can help you and your family manage the nonmedical stresses that come with your child's diagnosis.

## Conine Clubhouse: Home away from home

When a child is undergoing hospital treatment, having access to some of the comforts of home can go a long way for the family. The Conine Clubhouse, located on the hospital campus, offers just that. For more information about Conine Clubhouse, **visit [JDCH.com/Conine](https://www.jdch.com/conine)**.

**Or to check availability, call 954-265-9377.**
