

CHILDREN'S MINNESOTA YOUR PARTNER IN PEDIATRIC CARE.

Children's Minnesota brings together more experts across more specialties than any other hospital system in the Midwest — exclusively to care for children from before birth and into adulthood.

As the region's largest pediatric system, we partner every day with primary care physicians, specialty care providers, and advanced practice clinicians across the Midwest to bring world-class care to the most amazing people on Earth — kids.

THIS IS WHERE THE KID EXPERTS ARE

READY FOR ANYTHING

With 100+ specialties, the experts at Children's Minnesota are ready for anything. Some of our featured specialties include:

LEVEL I PEDIATRIC SURGERY

Our Level I pediatric surgery center performs 26,500+ surgeries annually, the most fetal and pediatric surgeries in the region.

EAR, NOSE, THROAT & FACIAL PLASTIC SURGERY

The only pediatric ENT program in the state dedicated exclusively to kids with disorders of the head and neck. Our pediatric ENT and facial plastic surgery team includes some of the most experienced pediatric otolaryngologists in the country.

NEONATAL

Caring for more than 2,500 newborns in our intensive care units every year. One of only three Level IV NICUs in the region with neonatologists providing care onsite, 24/7.

FETAL MEDICINE

National referral center and regional leader in fetal diagnosis and intervention, comprehensive care for unborn babies with complex conditions. Superior outcomes for fetal surgeries including TTTS and MMC.

LEVEL I PEDIATRIC TRAUMA

Offering 24/7 in-house access to pediatric trauma surgeons and 70+ pediatric emergency medicine physicians, nurse practitioners and physician assistants.

CARDIOVASCULAR

Providing comprehensive cardiac services from before birth into adulthood, performing 425+ surgeries annually. Our program treats the most pediatric cardiology patients in Minnesota and our outcomes are some of the best in the country. Our cardiovascular program is the only one in the region that is part of a health system dedicated exclusively to children.

CANCER AND BLOOD DISORDERS

The largest pediatric cancer and blood disorders program in the upper Midwest. We rank in the top 15 programs in the U.S. in both medical and surgical cancer outcomes, according to the Pediatric Health Information Systems (PHIS) database.

GENOMIC MEDICINE

The only genomic medicine program in Minnesota that focuses exclusively on caring for and bringing pharmacogenomics services directly to kids.

INDIVIDUAL PATIENT ENCOUNTERS* BY COUNTY

In 2020, Children's Minnesota cared for 125,949 unique patients from the five-state region. These patients represented 100 percent of Minnesota counties and 64 percent of the counties in Wisconsin, Iowa, North Dakota and South Dakota.

* Data includes all inpatient and outpatient visits to Children's Minnesota Minneapolis, St. Paul and Minnetonka locations. Excludes NextGen data/community clinic visits.
