

## TOP BENEFITS

### Fast

Simple to start up. Quick item creation, change, and editing. On-demand exam publishing and reporting.

### All-in-one Solution

Our all-in-one SaaS solution puts you in control of end-to-end exam development, management, and delivery. With no publishing fees or minimums.

## Leading innovation in assessment since 2001

Established in 2001, Kryterion is a global leader in online testing solutions. Our all-in-one SaaS solution supports intuitive workflows combining security, control, and flexibility across test development, management, and multi-modal delivery.

Kryterion understands the unique challenges of credentialing, from starting to growing mature programs. That's why we ensure you have access to our in-house experts in psychometrics and customer success.

# Our Webassessor SaaS Platform has delivered millions of exams for global industry leaders

## PROVEN, ROBUST PLATFORM

### Scalable to any size program

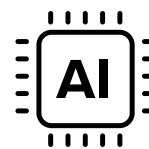

- Fully integrated to design, manage, deliver, and track items and exams in seamlessly integrated workflows
- Multi-modal test delivery: online live proctored, Kryterion's global network of over 1,000 test centers, your own private network and events, and unproctored
- Robust API integrations for your LMS, badging, and partner applications with Single Sign On (SSO) available
- Fastest time to launch, publish, and update your exams
- AI assisted candidate pre-check and room pan
- No annual minimums or test publishing fees
- GDPR Compliant and SOC2 Type II Certified
- Customizable branding
- Voucher and coupon support

## OUR CLIENT FIRST APPROACH

### You take control

Kryterion's SaaS platform gives you in-house control of your end-to-end exam development and delivery ecosystem in real time.

### Responsible AI

Kryterion's Artificial Intelligence (AI) tools enhance administration, candidate experience, and exam security.

### Client Success

Our clients include top-tier technology titans, professional associations, regulatory bodies, and growing companies.
