

Brilliant Sodium Assays

The 1st kit designed to measure Na^+ flux in a HTS-compatible format.

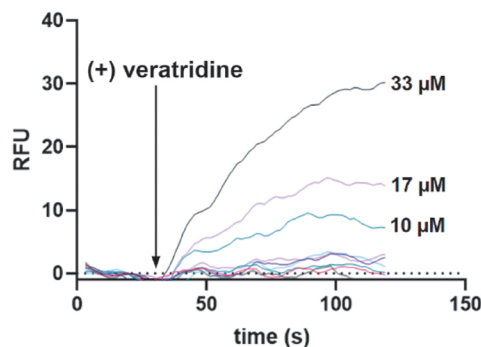

Functional assay for:

- ◀ Sodium channels
- ◀ Sodium transporters
- ◀ Sodium-dependent transporters

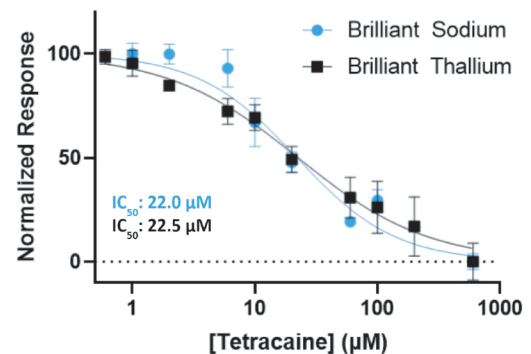

Advantages:

- ◀ Measure native ion
- ◀ Endpoint compatible
- ◀ Thallium-free

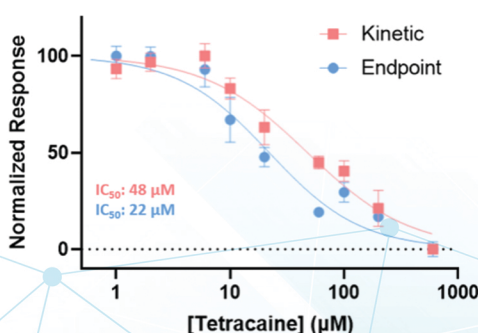

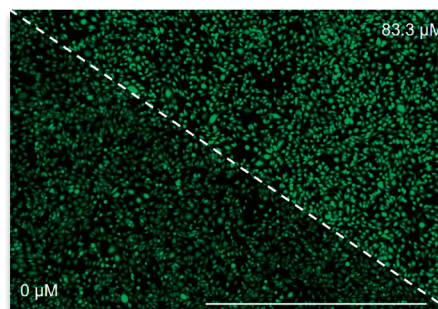

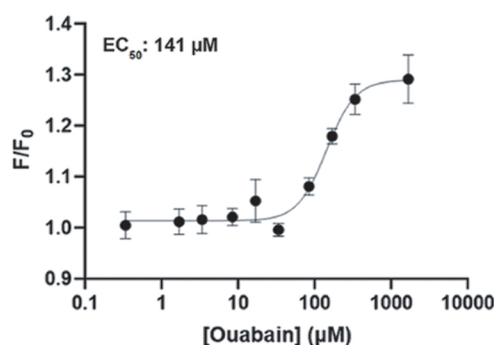

◀ $\text{Na}_v 1.3$ activation assay

◀ $\text{Na}_v 1.3$ inhibition assay

◀ Na/K-ATPase inhibition assay in CHO K1s

No FLIPR, No Problem!

Our Snapshot assays are endpoint compatible.
