

Accurate data ... and in less time? You bet.

It's the BradyPrinter i7100 Vial Label Applicator

Ensuring high quality data at higher volumes is a challenge. But, it's also 100% possible thanks to an automated solution like the **BradyPrinter i7100 Vial Label Applicator**. This device works with the BradyPrinter i7100 Industrial Label printer peel model, taking printed labels and applying them to vials and tubes. This is faster and more efficient than writing or hand-applying labels. It also reduces labeling time for lab techs, which saves both time and money. As daily volumes increase, so should your efficiency. And now, with the Vial Label Applicator, it finally can.

- **Efficient** — automated labeling saves time when used with the i7100 printer
- **Accurate** — allows precision tracking by eliminating error-prone, handwritten labels
- **Affordable** — device pays for itself in approximately 100 hours

Catalog #	Description
151156	BradyPrinter i7100 Vial Label Applicator
151752	BradyPrinter i7100 Industrial Label Printer peel version 300 dpi with Vial Label Applicator
151753	BradyPrinter i7100 Industrial Label Printer peel version 600 dpi with Vial Label Applicator
