GI intolerance is *common* and *affects outcomes*

87% of Patients *Switch Formulas*
2-3 Times During Care¹

GI Intolerance is the
Most Common Reason
Patients Switch Formulas¹

Which of these *common symptoms*
and *consequences* are your
patients experiencing?

Common Intolerance Symptoms:

- Nausea and/or vomiting
- Gagging or retching
- Diarrhea
- Constipation
- Bloating
- Abdominal pain
- Unintentional weight loss
- Early satiety
- Inability to reach goal volume or rate
- Missed home medical supply orders

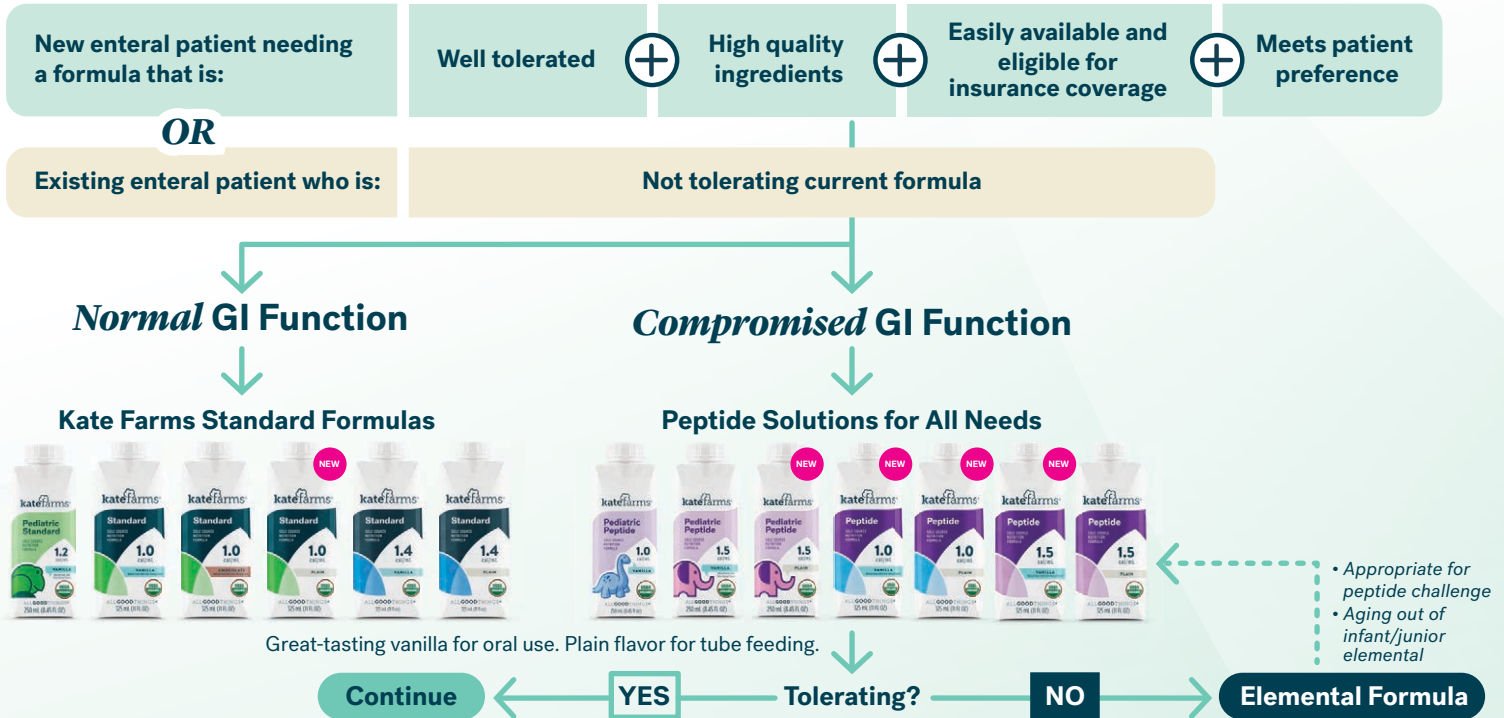

Potential Consequences

- Decreased adherence
- Decreased quality of life
- Poor weight gain
- Poor outcomes

* Independent data report on plant-based formula distributor volume in home care, acute care, and long-term care.

Reference: 1. Methodology: Online web survey (N=199) conducted 12/18-1/19. Included: Registered Dietitians (n=101) and Pediatric Gastroenterologists (n=98) who work with patients with enteral nutrition needs.

When to use Kate Farms Enteral Formula *Decision Tree*

The *reason* we are here

“Lylliahna’s team is so impressed by how well she is doing on Kate Farms. They thought she’d never have a break from TPN, and now she may be off completely by 3 years of age!”

Lylliahna S

“Due to complex 1 deficiency, Ehlers-Danlos Syndrome, CF-TR-related metabolic syndrome, and autism, I’ve had a G-tube for 10 years and a J-tube for about 4 years. Kate Farms helped me gain weight and energy.”

Paxton M

The *First Plant-Based Formula* to Demonstrate Weight Gain and Improved Tolerance

Pediatric patients who switched to Kate Farms¹:

- ✓ **90%** of caregivers reported better tolerance compared to previous formula*
- ✓ **86%** of patients had improved weight-for-age z-scores[†]

A large study (n=392) showed that patients who switched to Kate Farms²:

- ✓ **79%** Reported feeling healthier[‡]
- ✓ **67%** Reported improved digestive symptoms[§]

* Tolerance questionnaires were completed for 10 patients: 90% of caregivers agreed that their child tolerated the plant-based formula better than their previous regimen.

[†] For those patients <21 years old with a documented weight-for-age z-score (n=7), 6 showed improvement.

[‡] 79% of respondents reported that they strongly agreed/agreed that they felt healthier while on Kate Farms.

[§] Improved digestive symptoms included easier bowel movements and less reflux, abdominal discomfort, bloating, and nausea (n=246).

1. Cohen SA, et al. *JPEN*. 2020;44(3):274. 2. Cohen SA, et al. *JPEN*. 2020;44(3):275.

Improved Tolerance, Weight Gain, and Adherence in Pediatric Patients

A large study (n=159) showed that patients who switched to Kate Farms¹:

↓ 45% Bloating

↓ 43% Constipation

↓ 44% Vomiting

↓ 35% Diarrhea

Reduced GI
symptom frequency

90.6%

Gained or
maintained weight

Download
the App

* Adherence defined as consuming $\geq 75\%$ of the formula prescribed.

† Kate Farms formula use was reported as intact 67.9% (n=108) and peptide 44.7% (n=71).

Kate Farms® Pediatric Peptide 1.0 Vanilla

Plant-based, organic, sole-source or supplemental nutrition made with hydrolyzed pea protein for oral or tube feeding use in children 1-13 years of age. Made without dairy, soy, gluten, corn, peanuts, or tree nuts.

Nutritional Applications:

- Allergy or intolerance to milk, soy, corn, or artificial ingredients
- Transition from a free amino acid/elemental formula
- Dual therapy during TPN or transition from TPN
- Malabsorption
- Lactose-free, vegan, plant-based, gluten-free diets

Product Specifications:

- **Calorie Density:** 1.0 Calories/mL
- **Caloric Distribution (% of kcal):**
Protein 14%, carbohydrate 48%, fat 38%
- **Plant-based Protein Source:** Organic hydrolyzed pea protein
- **NPC to N Ratio:** 149:1
- **Carbohydrate Source:** Organic brown rice syrup solids, organic agave syrup, organic pea starch
- **Prebiotic Soluble Fiber Source:** Organic agave inulin
- **Functional Fat Source:** Organic MCT oil, organic high linoleic sunflower oil, organic flaxseed oil
- **Omega-6 to Omega-3 Ratio:** 3:1
- **MCT to LCT Ratio:** 50:50
- **Naturally Occurring Arginine:** 0.84 g/250 mL or 3.36 g/1000 mL

* DRI volumes should be determined by a medical professional, as adjustments can be made based on condition, other medication(s), or as otherwise deemed appropriate by a healthcare provider.

Features:

- Complete amino acid profile with Protein Digestibility Corrected Amino Acid Score (PDCAAS) of 1.0
- Excellent source of vitamin D3 from a vegan source to support expert recommendations¹
- 9 grams of sugar without artificial or nonnutritive sweeteners
- Prebiotic soluble fiber from organic agave inulin
- Phytonutrients with antioxidant properties
- Organic MCT oil to help facilitate fat absorption

- **Free Water:** 80%
- **Osmolality:** 305 mOsmol/kg water
- **Renal Solute Load:** 236 mOsm/L
- **Phytonutrient Blend:** 50 mg/250 mL or 200 mg/1000 mL

DRI Guidelines*: Volume needed to meet or exceed the DRI for protein and 25 micronutrients:

1-8 years old: 3.5 cartons or 875 mL (875 Calories)
9-13 years old: 6 cartons or 1500 mL (1500 Calories)
Not suitable for infants less than 1 year old.
Patent-pending formulation

HCPCS Code: B4153

Nutritional Applications:

- Allergy or intolerance to milk, soy, corn, or artificial ingredients
- Dual therapy during TPN or transition from TPN
- Malabsorption
- Lactose-free, vegan, plant-based, gluten-free diets

Features:

- Organic, plant-based protein with complete amino acid profile and Protein Digestibility Corrected Amino Acid Score (PDCAAS) of 1.0
- Excellent source of vitamin D3 from a vegan source
- Low glycemic index without artificial sweeteners or sugar alcohols
- Organic MCT oil to help facilitate fat absorption
- Prebiotic soluble fiber from organic agave inulin to support gut health
- Phytonutrients with antioxidant properties

Product Specifications:

- **Calorie Density:** 1.0 Calories/mL
- **Caloric Distribution (% of kcal):** Protein 20%, carbohydrate 45%, fat 35%
- **Plant-based Protein Source:** Organic hydrolyzed pea protein
- **NPC to N Ratio:** 102:1
- **Carbohydrate Source:** Organic brown rice syrup solids, organic agave syrup, organic pea starch
- **Prebiotic Soluble Fiber Source:** Organic agave inulin
- **Functional Fat Source:** Organic MCT oil, organic high linoleic sunflower oil, organic flaxseed oil

- **Omega-6 to Omega-3 Ratio:** 3:1
- **MCT to LCT Ratio:** 60:40
- **Naturally Occurring Arginine:** 1.4 g/325 mL or 4.3 g/1000 mL
- **Free Water:** 79%
- **Osmolality:** 290 mOsmol/kg water
- **Renal Solute Load:** 315 mOsm/L
- **Phytonutrient Blend:** 100 mg/325 mL or 308 mg/1000 mL

Not suitable for infants less than 1 year old.
Meets or exceeds 100% of the DRI for 25 of the listed micronutrients and protein at 1300 mL*.
Patent-pending formulation

* DRI volumes should be determined by a medical professional, as adjustments can be made based on condition, other medication(s), or as otherwise deemed appropriate by a healthcare provider.

Kate Farms® Peptide 1.5 Vanilla

Plant-based, organic, calorically-dense, sole-source or supplemental nutrition made with hydrolyzed pea protein for oral or tube feeding use. Made without dairy, soy, gluten, corn, peanuts, or tree nuts.

Product UPC: 851823006478
Case UPC: 851823006386
Packaging: 12 - 325 mL
Tetra-Pak cartons/case
NDC-Format No.: 51823-0006-47
HCPCS Code: B4153

Nutritional Applications:

- Poor or limited volume tolerance with need for a shortened feeding schedule
- Allergy or intolerance to milk, soy, corn, or artificial ingredients
- Dual therapy during or when transitioning from TPN
- Malabsorption
- Lactose-free, vegan, plant-based, gluten-free diets

Product Specifications:

- **Calorie Density:** 1.5 Calories/mL
- **Caloric Distribution (% of kcal):** Protein 19%, carbohydrate 36%, fat 45%
- **Plant-based Protein Source:** Organic hydrolyzed pea protein
- **NPC to N Ratio:** 105:1
- **Carbohydrate Source:** Organic brown rice syrup solids, organic agave syrup, organic pea starch
- **Prebiotic Soluble Fiber Source:** Organic agave inulin
- **Functional Fat Source:** Organic MCT oil, organic high linoleic sunflower oil, organic flaxseed oil
- **Omega-6 to Omega-3 Ratio:** 3:1

Features:

- Organic, plant-based protein with complete amino acid profile and Protein Digestibility Corrected Amino Acid Score (PDCAAS) of 1.0
- Excellent source of vitamin D3 from a vegan source
- Low glycemic index without artificial sweeteners or sugar alcohols
- Organic MCT oil to help facilitate fat absorption
- Prebiotic soluble fiber from organic agave inulin to support gut health
- Phytonutrients with antioxidant properties

- **MCT to LCT Ratio:** 30:70
- **Naturally Occurring Arginine:** 2.1 g/325 mL or 6.5 g/1000 mL
- **Free Water:** 70%
- **Osmolality:** 530 mOsmol/kg water
- **Renal Solute Load:** 580 mOsm/L
- **Phytonutrient Blend:** 100 mg/325 mL or 310 mg/1000 mL

Not suitable for infants less than 1 year old.
Meets or exceeds 100% of the DRI for 25 of the listed micronutrients and protein at 1000 mL*.
Patent-pending formulation

* DRI volumes should be determined by a medical professional, as adjustments can be made based on condition, other medication(s), or as otherwise deemed appropriate by a healthcare provider.
