

Children's of Alabama

# Pediatric Rehabilitation Medicine

**Children's of Alabama** offers a full range of rehabilitation services to meet the needs of children and adolescents recovering from acute, life-altering injuries and illnesses or living with chronic medical conditions that impact daily function.

Our services include physician-led intensive inpatient rehabilitation, transitional rehabilitation therapy services focused on the patient's return to home and community, outpatient rehabilitation therapy services, and follow-up in the Pediatric Rehabilitation Medicine Clinic.
