# Regenerative, Non-Invasive, Pain Management Through Photobiomodulation

Regenerative, Non-Invasive, Pain Management™ uses the scientifically proven modality of photobiomodulation; photons of light to modulate mitochondria at a biological level. The result is increased VEGF (Vascular Endothelial Growth Factor), molecular bloodflow and angiogenesis. This reduces pain and inflammation, enhances tissue healing and increases circulation.

## Physiological Effects of Laser Therapy

## Treatments & Applications

### Upper Extremities

- Migraine Headache
- TMD
- Trigeminal Neuralgia
- A-C Joint Sprain
- Ear Infection
- Rotator Cuff Strains & Tears
- Carpal Tunnel Syndrome
- Trigger Finger
- Tendonitis
- Motor Vehicle Accidents
- Torticollis
- Tooth & Jaw Pain

### Spine

- Acute & Chronic Pain
- Disc Degeneration
- Sciatic Pain
- Sprain/Strain
- Facet Joint Injury
- Bursitis

### Lower Extremities

- Arthritis
- Iliotibial Band Syndrome
- Sports Injuries
- Plantar Fasciitis
- ACL/PCL Injuries
- Meniscus/Ligament Injuries
- Heel Pain
- Baker's Cyst
- Post Knee Replacement

# Why Choose Summus Medical Laser?

Our goal is to improve lives, not only through revolutionizing laser therapy, but by ensuring the success of our providers. We are relentlessly focused on developing the most advanced therapeutic lasers that provide a non-surgical solution for clinicians to treat pain, reduce inflammation, and aid healing.

- ✓ **15+ Years in The Industry**
- ✓ **Guided by Physicians**
- ✓ **Scientifically-Proven**
- ✓ **Marketing & Training Support**
- ✓ **Dedicated Response Team**
