

Be there for your patients, no matter what

Easy communication, seamless telemedicine, and workflow efficiency – all in one place

up to **3^h**

saved per day per staff using Klara

92%

say: "it helps us deliver a great patient experience"

85%+

patient adoption in an average Klara practice

Easy patient communication

Give patients the convenience they demand with secure messaging. Eliminate phone tag and send files, photos, and more over text.

Seamless telemedicine

Evaluate and follow up with patients remotely using secure messaging and video visits. No login, email, or app download required for patients.

Powerful workflow efficiency

Patient questions and concerns are routed to team inboxes where they're quickly assigned and addressed right there within the same system.

Dr. Emmet Berg, Healthline Medical Group

Klara is a superb patient communication tool... it is unequivocally one of the best communication software applications that I have ever seen.
