# AVOMD

Actionable, Customizeable Decision Support that Empowers Clinicians

PROBLEM

Evidence-based medicine is **not actionable** and current **EHR-based CDS solutions are flawed**

- Clinical guidelines can be 100+ page PDFs, while hospital pathways are often provided in binders
- EHR-based solutions, like alerts, are ineffective/contribute to burnout

SOLUTION

AvoMD transforms clinical content into **actionable, modular decision support**, available via EHR integration (Epic App Orchard) or standalone web/mobile.
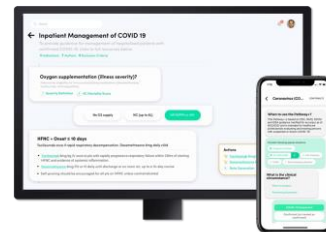

Clinical Content

Guidelines & pathways
Safety bundles
Checklists
Lab interpretations
Risk assessments

Content digitization

Actionable Decision Support

With or without EHR integration

Web and mobile availability

KEY OFFERINGS

Content
Build your own or leverage from leading societies & hospitals

Documentation
Save time by automatically generating notes

Analytics
Real-time insights to identify clinical & training gaps

Marketplace
Monetize & share your content with others

BENEFITS TO YOU

AvoMD provides ROI across crucial clinical and workflow dimensions

✓ **Outcomes**: 36% improvement in admission delays in the ED

✓ **Cost Savings**: $700K+ cost savings for a single pathway

✓ **Time Saved**: 43-55% of time saved at the point-of-care

✓ **Clinician Experience**: 95%+ of users advocate for expanded AvoMD usage

✓ **New Revenue**: new income from marketplace
