POINT-OF-CARE

**SEKISUI**  
DIAGNOSTICS  
*Because every result matters™*

SEKISUI Diagnostics delivers differentiated products, instrument systems, and services that support the improvement of patient care worldwide.

The OSOM® portfolio of rapid diagnostics offers a variety of family and women's health products, and our services deliver unparalleled value.

Many of the OSOM tests include the QC Inside® feature which provides extra tests at no charge for external QC testing.

The Acucy® System provides clinicians flexibility in workflow and accurate, standardized results for improved patient care. With Read Now and

Walk Away modes, clinicians can easily adjust their workflow based on patient volume to provide an optimal patient experience.
