

# Seattle Children's Fetal Care and Treatment Center

## The Most Comprehensive Fetal Care and Treatment Center in the Pacific Northwest

Seattle Children's Fetal Care and Treatment Center team is here to care for your patients and their developing baby every step of the way. Our experts will help diagnose and explain care options, provide treatment and collaboratively work with your patient during every visit and procedure.

### Comprehensive Services

- Seattle Children's and UW Medicine's Maternal Fetal Intervention and Surgery Program offers the next generation of fetal care for families around the Northwest and beyond.
- Our Fetal Diagnosis program offers the most advanced imaging studies, genetic testing and counseling.
- We offer services at more than a dozen locations in the region, including Alaska and Montana, as well as virtual consultations.
- We offer complex monochorionic multiples management.
- Our collaboration with UW Medicine's Maternal Fetal Medicine team allows us to provide the most comprehensive care for patients in the Northwest.

### Available When You Need Us

- We are available 24 hours a day, 7 days a week, year-round for urgent concerns.
- We provide families with second-opinion consultations with our team in Seattle via telemedicine.

### Outcomes Among the Best in the Nation

- Drs. Bettina Paek and Martin Walker have performed 575 fetoscopic laser ablations for twin-to-twin transfusion, with 96.5% of procedures resulting in one or more twin surviving and over 75% dual survival.
- Seattle Children's has some of the highest 30-day survival rates in the nation for neonatal heart surgeries and CDH.

### State-of-the-Art Facilities

- The newly remodeled Fetal Care and Treatment Center at Springbrook Professional Center, a block from Seattle Children's Hospital campus, is fully equipped for appropriate diagnostic and therapeutic procedures.
- Surgical procedures, such as fetoscopic surgery, laser procedures and bipolar cord coagulation, are performed at UW Medical Center-Montlake, located less than 1 mile away.

We're committed to partnering with you and are available to answer questions and support your care.

### How to Refer a Patient

For urgent maternal-fetal intervention or surgery concerns, please call 206-987-4137 to speak with the fetal intervention nurse coordinator.

For all other patients, please submit a referral using the form on our website: [seattlechildrens.org/fetalcenter](http://seattlechildrens.org/fetalcenter)

If you have questions, contact the Fetal Care and Treatment Center at 206-987-5629. For urgent concerns, please call our nurse care coordinators at 206-987-5629, ext. 3.

### Appointment Availability

We are accepting new referrals.

### What Your Patients Can Expect

Once we receive your referral, a clinical nurse will review it and then we will call your patient to schedule. Your patient will be seen as quickly as possible by the providers on the specialty team who are the best match for managing the current problem (based on urgency and availability).
