

WOLF + FRIENDS

Wolf+Friends is the most comprehensive online community for families of children with neuro and physical differences and disabilities. We bring parents + experts together on one social platform so families can make informed decisions about their children's education, health, wellness + future.

As a community founded and run by parents of children with disabilities, we know the importance of caregivers being able to surround themselves with people who get it.

As a therapist-owned company, we also know the importance of providing caregivers access to evidence-based resources and recommendations.

At Wolf+Friends, parents and caregivers get both!
