

POWERING PEDIATRIC PRACTICES WITH MODERN PAYMENT SOLUTIONS

LIQUID PAYMENTS' PATIENT-TO-PROVIDER TECHNOLOGY IS AUTOMATED, MOBILE, AND INTEGRATED FOR STREAMLINED PROCESSING AND POSTING

MORE REVENUE, SHORTER PAYMENT CYCLES THE ULTIMATE PEDIATRIC PAYMENTS PROCESSING SOLUTION

Are you using a payments processing system that does not integrate with your current EMR/EHR? Are you forced to use the credit card processor within your current practice management system even though it lacks modern technology and functionality? Would you like to create operational efficiencies and offer greater convenience for your patient's parents?

Liquid Payments (LQ) is an all-in-one platform that makes it a lot easier to track and collect payments, communicate with parents, and accurately integrate with your current practice management system.

LEARN HOW OUR PLATFORM CAN HELP

- **Process payments using modern device technology** — Wi-Fi, wireless payment terminal for in-person payments
- **Increase revenue** — Our system facilitates better collections of balances due
- **Improve cash flow and A/R cycles** — Secure card-on-file and text-to-pay options speeds payments
- **Reduce cost and Improve operational efficiency** — Mobile-based platform leverages automation for collection and posting
- **Better manage recurring billing plans** — Robust functionality and flexibility
- **Result in more satisfied patients** — Quick and contactless payments; enables use of mobile/smart devices for added convenience

Let's Get Started.

PAYMENT ALERTS

The system notifies the parent of amount due.

CONTACTLESS PAYMENTS

Parent pays quickly and easily from their mobile device.

STREAMLINED & EFFICIENT

Provider receives payment. Transactions posted in real time.

HOW THE RPA PROCESS WORKS

1. Establish connectivity / access to the underlying EMR / practice management system
2. Transaction posting protocols are confirmed with the provider
3. Automation process and tools are aligned with provider workflow
4. Robotics are programmed to post payments in real time — or as a scheduled batch at an agreed upon time each day

MOBILE, PAPERLESS, NON-CONTACT PAYMENTS FOR THE MODERN PEDIATRIC PRACTICE

- Mobile smart card readers — parents pay in office or outside at parent drop off
- Faster processing of hard to collect patient balances owed
- Eliminates paper statements. Online payments page for parents
- Integrates with any existing EMR/EHR or practice management system
- Safe and secure
- HIPAA and PCI-compliant

BATCH BILLING POST-INSURANCE COLLECTIONS

User uploads AR report of patient balances owed, and Liquid sends patient's parent actionable mobile statements via SMS / email for mobile card entry.

MOBILE PARENT PAYS SMARTLY

Using a remote smartphone or in-office, wi-fi based, smart payment device, parent pays with electronic speed and convenience.

INTEGRATED ACCURATE INTEGRATION

RPA enables accurate integration of financial data to any EMR/EHR or pediatric practice management system, thus streamlining operations and reducing costs.
