

## Our Vision

Autism Learning Partners provides paths of progress for children and their families living with autism and related disorders. We believe that a tailored, comprehensive care plan managed by our exceptional clinical talent, partnered with love and commitment from the family, allows each child to achieve their maximum potential.

## About Us

Autism Learning Partners began offering ABA therapy services to children with autism and other developmental disabilities, and their families, in 1998. The company was an early proponent of Applied Behavior Analysis and quickly adopted this clinical methodology as the cornerstone of its services to children and families. We now provide treatment services to individuals from birth through adulthood across the U.S., collaborating with doctors, therapists, families, schools, and specialists for complete and effective care.
