

# Postdoctoral Fellowships

Children's Hospital at Montefiore

At Children's Hospital at Montefiore (CHAM), we offer postdoctoral fellowship training in 23 different pediatric specialties. Fellows obtain rich clinical experiences at CHAM in both inpatient and outpatient settings, as well as at affiliated sites. Research opportunities abound, not only at CHAM, but also in laboratories at our Albert Einstein College of Medicine.

A Department of Pediatrics Fellows' Research Course for all fellows provides a longitudinal curriculum that also covers quality improvement and professional development. Fellows present their research at national meetings, not only at the Pediatric Academic Societies (PAS) but at subspecialty meetings.

Graduates of CHAM fellowships go on to successful careers and are leaders in their fields.

## CHAM offers the following pediatric specialty fellowships:

- ▶ Academic General Pediatrics
- ▶ Adolescent Medicine
- ▶ Allergy/Immunology
