

Achieve Better Outcomes for Patients, their Families, and Caregivers

SaVia Health integrates care pathways into clinician workflows alongside the EHR, standardizing care and achieving the best possible patient outcomes. By helping clinicians follow evidence-based, universal care guidelines, quality and health equity outcomes are maximized and potential incentive payments realized.

Key System Results

COST OF CARE SAVINGS

\$2,790,000 CLABSI-related losses eliminated in a single NICU
\$1,189,000 reduction in operating costs in 11 months

CLINICAL QUALITY

96,000 pokes eliminated
15,308 central line placements avoided
NICU CLABSI rate reduced to **0**
Reduced LOS

PATIENT AND CAREGIVER EXPERIENCE

82% reduction in staff turnover

"If you take this away, I will quit."

"SaVia lets everyone know everything, and most importantly, gives the patient a voice."
