# WE BRING THE CLASSROOM TO YOU

## FACILITATED EDUCATION EVENTS

We work with clinical experts to develop and record continuing education programs. Our Abbott Nutrition representatives are available to facilitate these programs in your facility.

### HOW TO GET STARTED

- 1 | Partner with your representative** to select an education program from our course catalog that is relevant to your practice.
- 2 | Choose a date, time and location** for your education experience.
- 3 | Print a certificate on [anhi.org/education](https://anhi.org/education)** when your program is done!

Contact your Abbott Representative to schedule a program at your facility. Visit [anhi.org/education/course-catalog](https://anhi.org/education/course-catalog) to see what's available for you.

## CERTIFICATES OF TRAINING

Strengthen your knowledge and build expertise on today's most important nutrition topics by completing a certificate of training and earning continuing education credits.

- Adult Malnutrition** ..... earn **7** credit hours
- Neonatal Nutrition** ..... earn **7** credit hours
- Nutrition Facts Label** ..... earn **4** credit hours
- Pediatric Malnutrition** ..... earn **10** credit hours

We also offer free online education courses that are always available so you can complete them when you're ready. Visit [anhi.org/education/nutrition-training-certificates](https://anhi.org/education/nutrition-training-certificates)

**OUR GOAL**  
IS TO WORK WITH YOU  
TO BUILD A LONG-TERM  
EDUCATION PLAN  
**TAILORED**  
TO YOUR NEEDS.

Follow ANHI for the latest nutrition science news and innovations.

# CERTIFICATES OF TRAINING

With a Certificate of Training, you can build your comprehensive knowledge on a topic at your own pace. And you can customize the curriculum to your clinical needs and interests by enrolling in a mix of required and elective courses.

1

**SELECT A CERTIFICATE**  
from the choices below

2

**ENROLL IN COURSES**  
and complete at your own pace

3

**TAKE THE FINAL EXAM**  
and achieve a score of 90% or higher to earn your certificate

## 7.0 RN CE / RD CPEU

### REQUIRED:

- Neonatal Fundamental: Infant Nutrition Assessment
- Neonatal Fundamentals: Enteral Nutrition
- Neonatal Fundamentals: Parenteral Nutrition
- Neonatal Fundamentals: Discharge and Follow-Up
- Pediatric Currents: Applying Malnutrition Indicators in the Preterm and Neonatal Population

### ELECTIVES (select five):

- Optimizing the Human Milk Diet for Preterm Infants
- Nutrition Assessment of the Preterm Infant
- Benefits of Breastfeeding
- Breastfeeding Techniques: Tips to Successfully Support the Breastfeeding Dyad
- Eat, Sleep, Console
- Motivational Interviewing: Application in Working with Patients and Families
- Implementing Individualized Infant Feedings: All About the Cues and More

## 7.0 RN CE / RD CPEU

### REQUIRED:

- Advances in Human Milk Fortification: Evidence for Preterm Infants – Part 1
- Advances in Human Milk Fortification: Evidence for Preterm Infants – Part 2
- Handling Human Milk and Formula in Healthcare Facilities
- Neonatal Alimentary System

### ELECTIVES (select three):

- Use of Prebiotics and Probiotics in Infants
- Welcome to the Jungle: Probiotics in the Preterm Infant
- Neonatal Opioid Withdrawal Syndrome
- Spotlight on the Gut-Brain Axis
- An Allergy Modulating Human Milk Oligosaccharide: 2’Fucosyllactose

# CERTIFICATES OF TRAINING

## 10.0 RN CE / RD CPEU

### REQUIRED:

- Identification and Diagnosis of Pediatric Malnutrition
- Detecting Pediatric Malnutrition: Tools for Screening and Criteria for Diagnosing
- Pediatric Nutrition-Focused Physical Exam
- Measures to Identify Pediatric Malnutrition: Introduction to Mid-Upper Arm Circumference and Z-Scores
- The Importance of Anthropometric Data in Infant and Pediatric Populations
- Nutrition for the Neurologically Impaired Child
- Pediatric Currents: Screening for Malnutrition Risk in Pediatrics

### ELECTIVES (select three)::

- Nutrition Interventions in Sick Pediatric Patients
- Utilizing NHANES Data to Assess Pediatric Malnutrition
- Practical Strategies for Achieving Growth Potential in Children
- Ethical Issues in Pediatric Care

## 7.0 RN CE / RD CPEU

### REQUIRED:

- Nutrition-Focused Physical Exam – Part 1: Subcutaneous Fat and Muscle Loss
- Nutrition-Focused Physical Exam – Part 2: Micronutrients, Fluid Accumulation and Functional Status
- Advancing Malnutrition Quality Improvement and Health Equity: Opportunities to Lead Change

### ELECTIVES (select four):

- Nutrition & Health Currents: Identification, Diagnosis, and Treatment of Malnutrition in Adult Hospitalized Patients: An Ethical Perspective
- Dietitians Driving Impact: Data on Improved Patient Care from the Malnutrition Quality Improvement Initiative (MQii)
- Malnutrition Screening in Adults: Combining Evidence and Clinical Practice to Improve Patient Care
- Adult Malnutrition in the Critical Care Setting: Utilizing Nutrition-Focused Physical Exam in the ICU
- Malnutrition Screening in Patients with Obesity in the Hospital Setting
- Performing Nutrition-Focused Physical Exam Via Telehealth in an Adult Outpatient Population

## 4.0 RN CE / RD CPEU

### REQUIRED:

- Decoding the Nutrition Facts Label: Overview
- Decoding the Nutrition Facts Label: Carbohydrates
- Decoding the Nutrition Facts Label: Protein
- Decoding the Nutrition Facts Label: Fat

Participants can only claim credit for one of the learning formats (group program or self-study). To receive credit for the self-study program, participants must view the self-study program independently and complete the post-test and evaluation to obtain their certificate.

Abbott Nutrition Health Institute is approved by the California Board of Registered Nursing, Provider #CEP 11213.

Abbott Nutrition Health Institute is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). CDR Credentialed Practitioners will receive Continuing Professional Education Units (CPEUs) for completion of these activities/materials. Continuing Professional Education Provider Accreditation does not constitute endorsement by CDR of a provider, program, or materials. If you have questions or concerns about an ANHI program meeting accreditation standards, please contact us or provide feedback to CDR.

# REFLECTIVE LEARNING FOR HEALTHCARE PROFESSIONALS

Reflective learning is approved by the Accreditation Council for Continuing Medical Education (ACCME) as an approach to earn continuing education credits for healthcare professionals.<sup>1</sup>

## WHAT IS REFLECTIVE LEARNING?

Reflective learning is a type of learning where healthcare professionals critically reflect upon their thoughts and behaviors to consider the implications for their clinical practice.

The ACCME has identified the unique features of reflective learning as<sup>1</sup>:

- Fostering the development of self-awareness
- Facilitating lifelong learning
- Identifying individual gaps and needs

## WHY CHOOSE REFLECTIVE LEARNING CREDIT?

This type of learner-driven education allows healthcare professionals to consider the implications of new information and experiences, and how they may play a role in promoting changes in current clinical practice. By reflecting on new information and experiences, you can<sup>2</sup>:

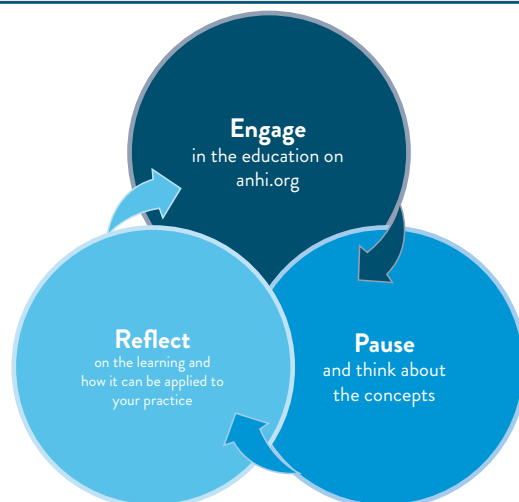

- Discover connections within an educational experience
- Recognize strengths and weaknesses
- Develop enhanced competence
- Improve the quality of care you provide

## REFLECTIVE LEARNING MAY BE A PART OF CO-LEARNING

Co-learning is sharing information with another healthcare professional to think bigger and reflect upon the learning.

Reflective learning may be a part of interprofessional learning. Interprofessional learning is two or more professions learning about, from, and with each other to support effective collaboration and improve health outcomes.<sup>3</sup>

**OPPORTUNITY TO EARN  
CME/CE CREDITS**  
ENGAGE. PAUSE. REFLECT.

# PATHWAY TO EARN CME/CE THROUGH REFLECTIVE LEARNING

REFLECTIVE LEARNING CAN BE PART OF DIFFERENT LEARNING EXPERIENCES

**Engage:**  
Participate in the ANHI education

1

## GETTING STARTED

Visit [anhi.org](https://anhi.org) to enroll in and complete a reflective learning offering

**Pause:**  
Think about the concepts presented in the education

2

After you've completed the learning offering you'll be redirected to our online partner CMEfy

**Reflect:**  
Consider how this information can be applied to your practice

3

Share your reflections through a written response for an opportunity to earn credit

**ANSWER THESE TWO QUESTIONS**

- 1 What did you think about the program / experience?
- 2 How will you change your practice based on the program / experience?

Visit our [Learning Approaches](#) page for more information on Reflective Learning

ANHI partners with CMEfy, a platform that directs learners to reflect at the point of inspiration or the Internet Point of Care Learning. CMEfy does not endorse, support or amplify ANHI content or learning experiences.

Dietitians, Nurses, Nurse Practitioners, Pharmacists, Physician Associates, Physicians, and other healthcare professionals may earn up to 1.0 CME/CE (0.5 CME/CE credit per reflection) per program at the point of care via the self-directed accredited activity experience, not for viewing, attending, or consuming ANHI content.

CME/CE credit through the CMEfy platform is Joint Accredited. The Commission for Dietetic Registration (CDR) has identified that all activities from a Joint Accredited provider be recorded as Activity Type 102 in the learner's CDR Activity Log.

# IMPORTANT INITIATIVES

We collaborate often to ensure we're bringing you the best nutrition science news from a variety of perspectives. Here, you'll find the outcomes of some of our recent partnerships.

## BREASTFEEDING

Families benefit greatly from the guidance offered by their healthcare team when it comes to succeeding at breastfeeding.

## MID-UPPER ARM CIRCUMFERENCE (MUAC)

MUAC measures muscle and fat mass in children, which is an important indicator of their nutritional status.

## MALNUTRITION QUALITY IMPROVEMENT INITIATIVE (MQii)

Established through a partnership with the Academy of Nutrition and Dietetics, Avalere Health, and other stakeholders, to advance evidence-based, high-quality patient-driven care for hospitalized older adults (age 65 and older) who are malnourished or at risk for malnutrition.

## ENTERAL NUTRITION ACADEMY

The Enteral Nutrition Academy (ENA) has been designed to keep you up to date with the latest scientific advances in enteral nutrition. The Academy offers resources, and events to help advance patient outcomes through improved enteral nutrition strategies.

## MENTAL HEALTH

A collection of podcasts, videos, and courses to offer actionable ideas to support your mental health journey.

## GROWTH AMBASSADORS

Growth Ambassadors are a collection of expert healthcare professionals from around the world who want to build awareness about the importance of childhood nutrition and growth.

## DECADE OF HEALTHY AGEING

We've curated a series of resources to help healthcare practitioners work toward improving the lives of older adults and their families, as well as the communities they serve.

## GLYCEMIC GUARDIANS

Glycemic Guardians are a collective of medical authorities who share their diabetes expertise with other practicing clinicians around the world.

## STRENGTH AMBASSADORS

The Abbott Strength Ambassador Program provides important, science-backed resources on the role good nutrition can play in building and maintaining strength to improve patient outcomes.
