

Who Are We?

We are Board-Certified Pediatric After Hours Support Team providing medical care for your patients when the office is closed. We partner with you to determine protocols for escalation of care, helping patients avoid unnecessary Urgent Care and Emergency Room visits.

How to Initiate a Visit

We streamline the registration process for your patients, offering registration online at [hellopediatrics.com](https://www.hellopediatrics.com), or over the phone, with one of our dedicated intake coordinators.

After the Visit

- Patients are encouraged to follow up with their Pediatrician in the days following their visit for acute illness/injury and well-child visits, vaccinations, and maintenance of healthcare.
- Encounter notes are sent via fax or eCW to the appropriate practice and Pediatrician.
- The designated practice point person will be notified of immediate action items and patients who need to be seen the following day.
- Hello Pediatrics will notify the corresponding pediatrician of any patients sent to the Emergency Room.

**Open 7 days a week
365 days a year**
