

PEDIATRIC RESIDENCY PROGRAM

PROGRAM DETAILS

- 25 Categorical Pediatrics and 2 Child Neurology residents per year
- 255 graduates since joint program established in 2011
- Strong fellowship matches across the nation
- Career tracks in Primary Care, Hospital Medicine, Critical Care, Subspecialty, and Research with individualization in Advocacy and Medical Education
- Residents in the Primary Care Track benefit from one-on-one mentorship by a community-based primary care pediatrician
- LEAD 4 IMPACT pathway available for 3rd year residents seeking advanced leadership skill-building in the domains teaching/medical education, advocacy and health equity with robust faculty mentorship from hospital- and University-based leaders

DIVERSITY INITIATIVES

- Holistic application review process, including diversity social events during recruitment
- STAR (Service, Teaching, Advocacy, and Research) Scholar Program supporting health equity research projects within ambulatory and community health settings
- Resident PRIDECommittee (Program for Inclusion, Diversity, and Equity)
- Health equity resident curriculum (HEART series)
