# Risk Management

Cayuse Human Ethics, Animal Oversight, Hazard Safety, Outside Interests, and Training Records prioritize safety and reduce potential compliance risks

The Cayuse Research Suite utilizes three decades of experience and leadership in life sciences research and facility management to provide a stable administrative foundation for your organization. Cayuse's Risk Management solutions ensure compliance and decrease administrative burdens for your organization.

Human Ethics, Animal Oversight, Hazard Safety, Outside Interests, and Training Records support Cayuse's Risk Management solutions by enhancing security, reducing errors, and protecting your subjects, researchers, and institution.

Human Ethics
(IRB)

Human Ethics features electronic IRB protocol preparation, submission, and routing to improve collaboration among administrators, researchers, and committee members.

Animal Oversight
(IACUC)

Animal Oversight manages the entire lifecycle of IACUC protocols by helping to electronically prepare, submit, and route studies for committee approval.

Hazard Safety
(IBC)

Hazard Safety ensures that protocols adhere to IBC and NIH requirements to promote safety and compliance alongside efficiency.

Outside Interests
(COI)

Outside Interests requires no training and effortlessly guides research staff through the processes of conflict of interest (COI) disclosures.

Human Ethics Highlights

- Human Ethics is intuitive to use, with familiar form templates developed with an AAHRPP-accredited partner, a drag-and-drop builder, the ability to revert to previous drafts, and the ability to skip logic or conditional branching.
- Human Ethics has proven to reduce time spent on IRB applications by 70%.

> " The Human Ethics dashboard is fantastic…In the past, it was unheard of to turn around something in 48 hours. Now we can do that. It's really that much of a game-changer."

Jonathan Lyon
Vice Provost, Merrimack College

> " We can now turn around exempt studies in three days, even 24 hours sometimes."

Michael Leary
Director of Research and Compliance, Lindenwood University

## Animal Oversight and Hazard Safety Highlights

- Ensure accurate information for compliance and protocols with filter-driven USDA and AAALAC reports and automatic notifications for annual and De Novo renewals.
- Receive instantaneous access to the latest protocol version, change tracking, and side-by-side version comparisons for absolute transparency.
- Improve internal collaboration and reduce protocol approval time with fully built-in workflows, agenda management, and committee meeting management.
- Automatically track training requirements to expedite protocol authorship and approval with Animal Oversight's Training Records.
- Support multiple independent IACUCs within the same organization with Animal Oversight.
- Manage an IBC or NIH protocol's entire lifecycle from authorship to end of study with Hazard Safety.

> " Outside Interests will reduce the time needed to file a COI disclosure from 20+ minutes to only a minute or two."

Michael Briggs
Director of Research Integrity, Chapman University

Outside Interests Highlights

- Enable research administrators to ensure compliance and minimize liability with features like auto-approvable disclosures and quick access to comprehensive overviews of disclosure statuses.
- Simplify COI disclosures to the point that no training is required.
