Journal of the Academy of Nutrition and Dietetics

THE OFFICIAL JOURNAL OF THE ACADEMY OF NUTRITION AND DIETETICS

The *Journal of the Academy of Nutrition and Dietetics* is the premier source for the practice and science of food, nutrition, and dietetics. The Journal publishes on a range of research and practice issues including nutritional science, medical nutrition therapy, public health nutrition, food science and biotechnology, foodservice systems, and dietetics education.

EDITOR-IN-CHIEF: Linda G. Snetselaar, Ph.D., RDN, LD, FAND

Human Nutrition & Metabolism

Human Nutrition & Metabolism is dedicated to research focusing on the physiology and pathophysiology of nutrition and metabolism in humans. The journal publishes original papers, reviews, commentaries and opinion pieces in human nutritional and metabolic science to bridge the gap between preclinical and clinical work. Papers can focus on areas such as lifestyle, diabetes, insulin resistance, metabolic diseases, undernutrition, in-hospital nutrition, and disease specific nutrition. *Human Nutrition & Metabolism* is where the bench meets the bedside.

Journal of Nutrition Education and Behavior

OFFICIAL JOURNAL OF THE SOCIETY FOR NUTRITION EDUCATION AND BEHAVIOR

The *Journal of Nutrition Education and Behavior* serves as a global resource for professionals with an interest in nutrition education; nutrition and physical activity behavior theories and intervention outcomes; complementary and alternative medicine related to nutrition behaviors; food environment; food, nutrition, and physical activity communication strategies including technology; nutrition-related economics; food safety education; and scholarship of learning related to these areas.

Journal of Nutritional Biochemistry

The *Journal of Nutritional Biochemistry* presents experimental nutrition research as it relates to: biochemistry, molecular biology, toxicology, or physiology. The Journal focuses on nutrition research being conducted at the cellular, animal and human level.

Nutrition

Nutrition publishes advances in nutrition research and science; informs readers on new and advancing technologies and data in clinical nutrition practice; encourages the application of the techniques of outcomes research and meta-analyses to problems in patient-related nutrition; and seeks to help clarify and set the research, policy and practice agenda for nutrition science.

Nutrition, Metabolism & Cardiovascular Diseases

OFFICIAL JOURNAL OF THE ITALIAN SOCIETY OF DIABETOLOGY, THE ITALIAN SOCIETY FOR THE STUDY OF ATHEROSCLEROSIS AND THE ITALIAN SOCIETY OF HUMAN NUTRITION

Nutrition, Metabolism & Cardiovascular Diseases publishes on the interplay between nutritional and metabolic alterations with cardiovascular disorders. The Journal helps refine strategies against the nutrition-related epidemics of metabolic and cardiovascular diseases by publishing on clinical and preventive medicine; vascular biology; and the origins, mechanisms and means to prevent and control diabetes, atherosclerosis, hypertension, and other nutrition-related diseases.

Nutrition Research

Nutrition Research publishes on all aspects of basic and applied nutrition. The Journal aims to serve as a primary source for nutrition and life sciences research on diet and health including the study of nutrients during growth, reproduction, aging, and disease.

Clinical Nutrition

AN OFFICIAL JOURNAL OF THE EUROPEAN SOCIETY FOR CLINICAL NUTRITION AND METABOLISM (ESPEN)

Clinical Nutrition publishes on nutritional and metabolic care and the relationship between nutrition and disease in basic science and clinical practice with a focus on those factors in acute and chronic diseases which have metabolic and nutritional implications. The Journal also publishes scientific works related to the development of new techniques and their application in the field of clinical nutrition.

Clinical Nutrition Open Science

AN OFFICIAL JOURNAL OF THE EUROPEAN SOCIETY FOR CLINICAL NUTRITION AND METABOLISM (ESPEN)

With an aim to stimulate experimental research activities in the field of clinical nutrition, the journal welcomes the latest and most exciting experimental and clinical articles on methodology, nutrient physiology and metabolism, nutritional neurosciences, toxicities, immunology, nutrigenomics, molecular nutrition, vitamins, trace elements, antioxidants, genetics and microbiota.
