

Get back to living with Lympha Press.

Swollen limbs associated with venous disease can be debilitating. Lymphatic overload is often the source.¹ Combining venous procedures with the at-home use of Lympha Press effectively treats lymphatic overload.

85%

of patients polled said
using Lympha Press
reduced discomfort*

After treatment for CVI, I had edema in both legs. I love the Lympha Press Optimal Plus because after a long day on my feet, I look forward to managing the swelling in the comfort of my own home.

Built for real life. Yours.

Designed to keep your therapy moving forward.

Lympha Press effectively treats lymphatic overload before and after venous procedures. You'll feel the difference—and see the results.

- The leading cause of lymphedema is chronic venous insufficiency (CVI)
- Helping the lymphatic system to adequately drain fluid is imperative to prevent:
 - Progressive infection
 - Wound complications
 - Costly hospitalizations
- Lympha Press promotes lymph flow
