

Specialty Pharmaceutical Distribution (SPD)

Delivering outstanding patient care

starts with having the right products when you need them most.

Through our SPD business, we work with your retail pharmacy to identify your unique challenges, generate insights and provide the products, technologies and knowledge you need.

We simplify the delivery of specialty products by leveraging our scale as one of the largest specialty pharmaceutical supply chains in the U.S. and decades of experience delivering these critical medications.

Your commitment to take care of your patients is unrivaled. We will be with you every step of the way and are proud to support your pharmacy by offering a broad specialty product portfolio, including:

- Coagulation factors
- Albumin
- IVIG
- Hyperimmunes
- Oncolytics
- Limited distribution drugs
