

Take your business into the cloud with CareTend, powered by WellSky

For more than 20 years, home care providers have trusted WellSky to keep their data safe, protect patient information, and ensure compliance.

With CareTend's hosted solution, you can eliminate long nights of manual data backups and enjoy the peace of mind that your data is secure.

Improve data security with CareTend

By allowing us to host your software, you can focus more on patient care and less on technology. Our secure data center ensures that your data is protected by the tightest security standards in the healthcare industry.

- Level 4, SSAE 16, SOC1, 2N data center
- Staffed with on-site engineer specialists 24/7
- Temperature, air quality, and humidity monitoring 24/7/365
- 24/7/365 security monitoring with more than 200 cameras and guard staff on duty

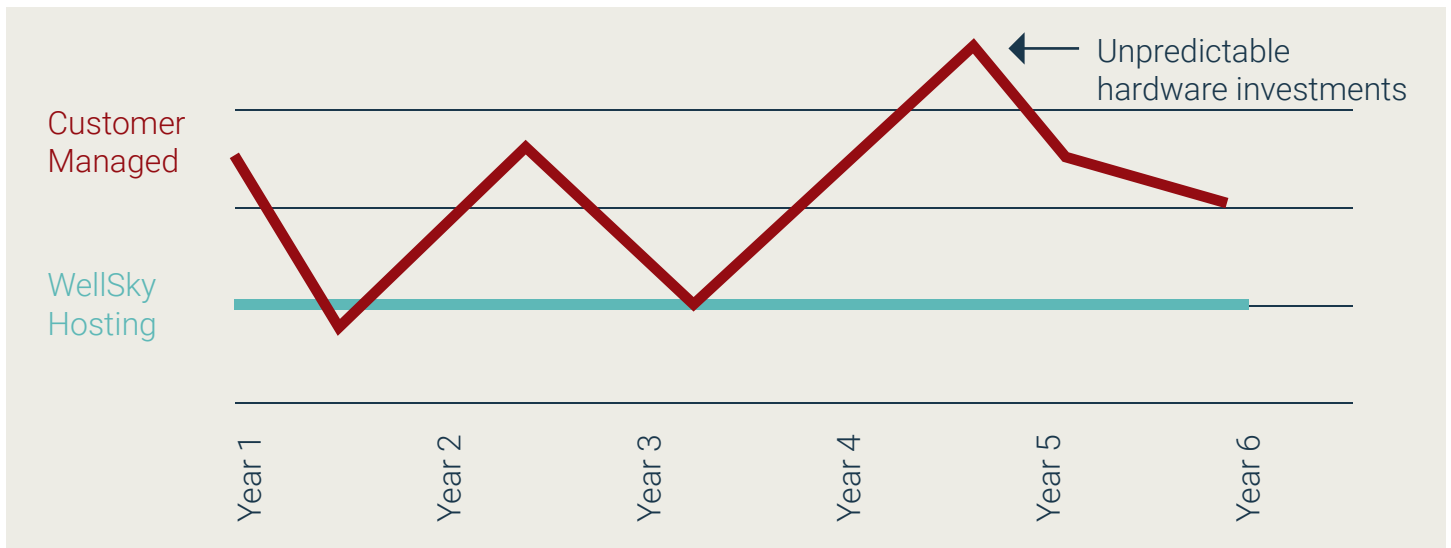

SOC Compliant

WellSky is committed to providing security, confidentiality, availability, privacy, and processing integrity for all customers. With our Service Organization Controls (SOC) detailed audit review, hosted customers can remain confident that their data is secure.

- SOC 2 Type I and Type II certification
- SOC 3 certification

WellSky's SaaS solutions meet and exceed compliance criteria established by the American Institute of Certified Public Accountants (AICPA) including:

- Network connectivity
- Firewall configuration
- Secure software development life cycle
- Computer operations
- Database access
- Data transmissions
- Backup
- Disaster recovery
