

An extensive specialty portfolio with superior service

Product portfolio: February 2024

Cardinal Health Specialty Pharmaceutical Distribution partners with customers and pharmaceutical suppliers to identify their unique challenges and opportunities. Our tenured industry experience, tailored service offerings and products, as well as our technologies and data, are leading the way to specialty product access for the betterment of patient care.

We simplify the delivery of specialty products by leveraging our scale as one of the largest specialty healthcare supply chains in the United States, long-standing relationships with leading group purchasing organizations and decades of experience delivering specialty products.

Serving a wide range of healthcare settings and therapeutic areas

Our product coverage extends to all major suppliers, acute care facilities and affiliated physician practices and clinics with oncology, urology, nephrology, rheumatology, gastroenterology, ophthalmology, neurology, and immunology specialties.

Leading the industry

We are leading the market in exclusive access to new LDDs¹.

Unparalleled customer service

"We chose Cardinal Specialty to be the primary Specialty Distribution Partner for the US launch of a limited distribution drug (LDD). Throughout the extensive planning and launch of the LDD, Cardinal Health has been an outstanding partner and a key component of our continued success. **The Cardinal Health team was very collaborative and focused on delivering the best solution for our patients. The specialty team at Cardinal Health has my highest recommendation as an outstanding business partner.**"
